

## **Boudoir Photoshoot Guidelines**

Our studio employs female boudoir photographers who strive to capture moments of beauty in timeless and tasteful photographs. Clients can expect a private and comfortable setting for their session, with changing spaces and restrooms available for use. We want to empower women of all body sizes and builds to showcase their sensuality, humor, and inner beauty through creativity and self-expression.

At Jojo's Photos & Studio, we have different session packages available including options for hair & makeup applications as well as creative makeup applications. Below, you will find tips that may help make your photography experience better.

### What to Expect:

- Wear loose clothing to the photo shoot to prevent any lines on the body
- There is no need to worry about posing, we will guide you through and encourage you!
  - If you are doing a full session, bring 2 outfits
  - If you are doing a half-hour session, bring 1 outfit
- If you decide to bring more than two outfits, you will still receive the same amount of total photos but fewer photos for each outfit
